## Grease Pak | Biological Dosing

The GTS GreasePak is a pre-programmed automatic Biological Dosing System. It is designed to be wall mounted with a connection into the waste pipe in a commercial kitchen.

## **Key Benefits:**

- Simple and easy to operate, clean and extremely hygienic.
- Helps prevent build up of FOGs (Fats, Oils and Greases) in the drain run.
- As simple indicator on the housing shows when the fluid needs replacing.
