Heavy Duty Access Cover

This heavy duty ductile iron pre-locked circular manhole cover in hexagonal frame is suitable for use with the Jumbo 1 (see image below) and 2 underground grease traps which may be located in roadways and high traffic areas.

The hexagonal frame is 600mm diameter x 100mm and totals 782mm overall. A non-rock nylon cushion insert provides stability under load. This product is manufactured to BS EN124 Class D400.
